

# **User Guide for Nokia 7650/3650**

**Version 1.0**

**Intuitive Computers**

## Introduction

---

Meteor for the Nokia 7650/3650 phone is an exciting space shooting game developed by Intuitive Computers.

Try to destroy more and more meteors during your long trip in space. Collect red coins to raise energy level and green coins to activate shield.

## Installation

---

### Using PC Suite for Nokia 7650

Connect the phone to the PC using Infra-Red or Bluetooth. Run the file **Meteor\_v1\_0\_S60.sis** and it will be automatically installed.

### Sending file to InBox

You can send the file **Meteor\_v1\_0\_S60.sis** to your phone via Infra-Red or Bluetooth. It will be stored as New Message in your phone's InBox. Open the message and install the program.

## Registration

---

If it is the first time to run the program, registration code is required. Registration code is given based on the IMEI number of your phone. IMEI will be shown by pressing **\*#06#** on the keypad. Please send this 15-digit serial number to Intuitive Computers to generate the registration code.

## Playing the game

---

You can play Meteor on the Nokia 7650 phone without opening the sliding keypad. In the main menu you can push navigation key upward or downward to choose Start game or Credits and press it to select.

### **Movements**

Move spaceship left	push navigation key left, 1, 4, 7, *
Move spaceship right	push navigation key right, 3, 6, 9, #

### **Fire**

Press navigation key or 2, 5, 8 or 0 on numeric keypad to fire.

### **Exit**

You can press right option key to exit.
